VINEYARD MANAGEMENT

## PROFESSIONAL VINEYARD MANAGEMENT

### PROVIDING HOLISTIC, TAILORED MANAGEMENT PROGRAMS TO THE SOUTH WEST

We offer our clients the advantage of a fully resourced, wholly independent management service, with the ability to tailor a management package to an owners exact needs.

From an all-embracing service, to a joint arrangement in which owners choose their desired level of involvement, we have the flexibility and expertise to manage a vineyard to whatever style and budget sought by the client.

“Throughout the past seven vintages the management team at Viticultural Innovations have consistently proven themselves to be an invaluable asset to our company. Their considerable expertise, professional integrity and unsurpassed resources has been essential to us achieving the exact fruit specifications and budget requirements that our business relies on. A key point of difference is their ability to independently supply all facets of our vineyard operations. From machinery to labour to technical to administrative services, they are integrally involved in all areas. In an ever more competitive market place we are fortunate to have the services of a professional management company that understands the financial intricacies of a vineyard's operation as much as the technical.”
